

Schedule for Various Sessions of EAI BigIoT-EDU 2022 (Day-wise)

Beijing Time		July 29			July 30		July 31	
8:00 AM	8:15 AM	Keynote			Virtual Room 1 (Session 13)	Virtual Room 2 (Session 14)	Virtual Room 1 (Session 21)	Virtual Room 2 (Session 22)
8:15 AM	8:30 AM							
8:30 AM	8:45 AM	Virtual Room 1 (Session 1)	Virtual Room 2 (Session 2)	Virtual Room 3 (Session 3)	Virtual Room 1 (Session 13)	Virtual Room 2 (Session 14)	Virtual Room 1 (Session 21)	Virtual Room 2 (Session 22)
8:45 AM	9:00 AM							
9:00 AM	9:15 AM							
9:15 AM	9:30 AM							
9:30 AM	9:45 AM							
9:45 AM	10:00 AM	Tea Break			Tea Break		Tea Break	
10:00 AM	10:15 AM	Virtual Room 1 (Session 4)	Virtual Room 2 (Session 5)	Virtual Room 3 (Session 6)	Virtual Room 1 (Session 15)	Virtual Room 2 (Session 16)	Virtual Room 1 (Session 23)	Virtual Room 2 (Session 24)
10:15 AM	10:30 AM							
10:30 AM	10:45 AM							
10:45 AM	11:00 AM							
11:00 AM	11:15 AM							
11:15 AM	11:30 AM							
11:30 AM	11:45 AM							
11:45 AM	12:00 PM							
12:00 PM	12:15 PM							
12:15 PM	12:30 PM							
12:30 PM	12:45 PM	Lunch Break			Lunch Break		Lunch Break	
12:45 PM	1:00 PM	Virtual Room 1 (Session 7)	Virtual Room 2 (Session 8)	Virtual Room 3 (Session 9)	Virtual Room 1 (Session 17)	Virtual Room 2 (Session 18)	Virtual Room 1 (Session 25)	Virtual Room 2 (Session 26)
1:00 PM	1:30 PM							
1:30 PM	1:45 PM							
1:45 PM	2:00 PM							
2:00 PM	2:15 PM							
2:15 PM	2:30 PM							
2:30 PM	2:45 PM							
2:45 PM	3:00 PM	Tea Break			Tea Break		Tea Break	
3:00 PM	3:15 PM	Virtual Room 1 (Session 10)	Virtual Room 2 (Session 11)	Virtual Room 3 (Session 12)	Virtual Room 1 (Session 19)	Virtual Room 2 (Session 20)		
3:15 PM	3:30 PM							
3:30 PM	3:45 PM							
3:45 PM	4:00 PM							
4:00 PM	4:15 PM							
4:15 PM	4:30 PM							
4:30 PM	4:45 PM							
4:45 PM	5:00 PM							

- Room 1
- Room 2
- Room 3

Date	Session #	Beijing Time		Paper ID	Paper Title
July 29	Virtual Room 1 (Session 1)	8:30 AM	8:45 AM	320017	The reproduction of foreign language learning simulation scene based on virtual reality
		8:45 AM	9:00 AM	320016	The reform of accounting education in Colleges and Universities Based on cloud computing in the era of big data
		9:00 AM	9:15 AM	319949	Evaluation model of College Students' psychological education quality based on data technology
		9:15 AM	9:30 AM	319912	Value reconstruction and Path Innovation of blockchain technology for the development of Higher Education
		9:30 AM	9:45 AM	319817	Application of data mining technology based on Weka in student management
		9:45 AM	10:00 AM	319814	Application of data mining in psychological education of college students in private independent colleges
	Virtual Room 1 (Session 4)	10:15 AM	10:30 AM	319810	Application of data mining algorithm in value engineering in the selection of highway engineering design scheme
		10:30 AM	10:45 AM	319808	Design and implementation of teaching evaluation system in Higher Vocational Colleges Based on association rule algorithm
		10:45 AM	11:00 AM	319806	Application of computer intelligent proofreading system in English phrase translation
		11:00 AM	11:15 AM	319804	Application of Big Data Informatization in Public Utilities Response
		11:15 AM	11:30 AM	320181	Using deep convolution neural network to detect the wrong movement in physical education teaching and training
		11:30 AM	11:45 AM	320182	Visual monitoring method of digital computer room based on digital twin
		11:45 AM	12:00 PM	320179	Research on Feature Picking of Domestic Waste Sorting Based on Neural Network Training
		12:00 PM	12:15 PM	320177	Optimization of Extraction Technology of Sophora tonkinensis Gagnep. by Orthogonal Test Based on Information Entropy Weighting Method
		12:15 PM	12:30 PM	320176	Mechatronics design of silkworm frame automatic shelving in intelligent silkworm rearing system
		12:30 PM	12:45 PM	320175	Kinematics simulation of mulberry spraying plant protection robot protection
		12:45 PM	1:00 PM	320174	Application of fuzzy data mining algorithm in human resource management of power industry

July 29	Virtual Room 1 (Session 7)	1:30 PM	1:45 PM	320173	Exploration of course teaching reform based on the construction of teaching resource base under neural network
		1:45 PM	2:00 PM	320172	Design of vocabulary query system in computer aided English translation teaching
		2:00 PM	2:15 PM	320171	Design of elevated silkworm frame leaf feeding system
		2:15 PM	2:30 PM	320170	Design of children and adolescents' physical health intervention system based on genetic algorithm
		2:30 PM	2:45 PM	320169	Design and implementation of English grammar error correction system based on deep learning
		2:45 PM	3:00 PM	320168	Application of data mining technology in university education management
		3:00 PM	3:15 PM	320167	Application of computer network technology in enterprise information management
		3:15 PM	3:30 PM	320162	Research on the evaluation index system of Higher Vocational entrepreneurship and innovation education guided by the integration of production and education under the diversified algorithm
	Virtual Room 1 (Session 10)	3:45 PM	4:00 PM	320161	Research on sales simulation teaching system based on Data Mining
		4:00 PM	4:15 PM	320155	Discusses the relationship between the first excitation energy of the nucleus and the magic number
		4:15 PM	4:30 PM	320020	The path of English subject under genetic algorithm in the construction of college campus culture
		4:30 PM	4:45 PM	320019	The direction of English teaching reform in the context of Internet plus
		4:45 PM	5:00 PM	320018	The Design of the English Teaching Resource Management System Based on Collaborative Recommendation
	Virtual Room 2 (Session 2)	8:30 AM	8:45 AM	320015	The influence of computer aided system teaching on Vocabulary Learning
		8:45 AM	9:00 AM	320014	The Difference and Forecast Analysis of the Eastern and Western Economic Development Based on Big Data Inform
		9:00 AM	9:15 AM	320013	The Design of English Teaching Resource Management System Based on Genetic Algorithm
		9:15 AM	9:30 AM	320012	Safety management and control measures of Expressway Bridge Construction under the background of big data
		9:30 AM	9:45 AM	320011	Research on the training of outstanding engineers in architectural education based on ant colony algorithm
		9:45 AM	10:00 AM	320010	Research on the teaching design of public management in the era of "Internet +"

Virtual Room 2 (Session 5)	10:15 AM	10:30 AM	320009	Simulation and nonlinear observer of multi scroll chaotic system
	10:30 AM	10:45 AM	320008	Research on user behavior of College English mobile learning app
	10:45 AM	11:00 AM	320007	Research on the transformation of Financial Accountants in manufacturing enterprises under the background of cloud computing
	11:00 AM	11:15 AM	319998	Research on the construction of business English education translation platform based on "Internet +"
	11:15 AM	11:30 AM	319997	Research on the application of decision tree algorithm in practical teaching of Public Physical Education in Colleges and Universities
	11:30 AM	11:45 AM	319996	Research on the application of data mining technology in physical training
	11:45 AM	12:00 PM	319995	Research on the application of Data Mining in The Quality analysis of College English Teaching
	12:00 PM	12:15 PM	319994	Research on the application of computer technology in the dissemination and promotion of folk art culture
	12:15 PM	12:30 PM	319992	Research on the application of College English ecological teaching model based on EM algorithm
	12:30 PM	12:45 PM	319991	Research on the application of cloud computing College English Teaching Assistant Platform
	12:45 PM	1:00 PM	319990	Research on teaching innovation of computer rendering course of environmental design specialty based on PTP mode
Virtual Room 2 (Session 8)	1:30 PM	1:45 PM	319989	Research on teaching development and application of data mining algorithm in Japanese Corpus
	1:45 PM	2:00 PM	319988	Research on teaching design of network marketing practice based on big data analysis
	2:00 PM	2:15 PM	319987	Research on system design of educational curriculum construction based on big data platform
	2:15 PM	2:30 PM	319986	Research on student achievement and employment flow based on Apriori algorithm under the background of big data
	2:30 PM	2:45 PM	319985	Research on quality evaluation of College Students' innovation and entrepreneurship education based on grey correlation algorithm
	2:45 PM	3:00 PM	319984	Research on public opinion risk management and control under network media big data
	3:00 PM	3:15 PM	319983	Research on online English speech interactive recognition system based on nose algorithm
	3:15 PM	3:30 PM	319982	Research on national dance culture education and teaching based on data mining algorithm

29 July	Virtual Room 2 (Session 11)	3:45 PM	4:00 PM	319981	Research on Mining Algorithm and Its Application in Mine Safety Management Education
		4:00 PM	4:15 PM	319980	Research on language learning and cross-cultural function based on mobile digital platform
		4:15 PM	4:30 PM	319979	Research on interactive mode of drama performance based on VR technology
		4:30 PM	4:45 PM	319978	Research on Interactive English grammar learning system based on Android platform
		4:45 PM	5:00 PM	319977	Research on intelligent evaluation of College Students' mental health based on decision tree algorithm
	Virtual Room 3 (Session 3)	8:30 AM	8:45 AM	319976	Research on Intelligent Analysis and Processing Technology of Financial Big Data Education Based on DM Algorithm
		8:45 AM	9:00 AM	319975	Research on film visual concept and creative method in the era of virtual production
		9:00 AM	9:15 AM	319974	Research on Evaluation of physical education teaching quality based on comprehensive integrated evaluation method and SVM
		9:15 AM	9:30 AM	319973	Research on Enterprise Marketing Education Strategy Based on Data Mining Technology
		9:30 AM	9:45 AM	319972	Research on English Teaching in Higher Vocational Colleges Based on big data analysis
		9:45 AM	10:00 AM	319971	Research on English teaching ability evaluation algorithm based on big data fuzzy k-means clustering
	Virtual Room 3 (Session 6)	10:15 AM	10:30 AM	319970	Research on English language learning algorithm based on speech recognition confidence
		10:30 AM	10:45 AM	319969	Research on English Chinese translation system for tourism based on Globish
		10:45 AM	11:00 AM	319964	Implementation of intelligent algorithm in mathematical modeling teaching
		11:00 AM	11:15 AM	319963	Highway engineering cost evaluation algorithm based on Improved Particle Swarm Optimization Evolutionary Computation
		11:15 AM	11:30 AM	319962	Higher education evaluation system based on computer network
		11:30 AM	11:45 AM	319961	Fast conversion of material parameters of asphalt mixture by Laplace transform
		11:45 AM	12:00 PM	319960	Exploring the practical teaching of a specialized interim course in electronic information engineering under the background of artificial intelligence

July 30		12:00 PM	12:15 PM	319959	Exploration of personalized foreign language teaching model based on the integration of multimedia means and traditional methods
		12:15 PM	12:30 PM	319958	Based on big data analysis of the phased development of China's marketing
		12:30 PM	12:45 PM	319957	Application progress of particle swarm optimization in modern literature
		12:45 PM	1:00 PM	319956	Application of Web Data Mining Algorithms in Information Management Education
	Virtual Room 3 (Session 9)	1:30 PM	1:45 PM	319955	Exploration and practice of experimental teaching mode of online and offline virtual reality combined with hybrid computer network course
		1:45 PM	2:00 PM	319954	Application of virtual reality technology in environmental art design
		2:00 PM	2:15 PM	319953	Evaluation of English teaching quality in Higher Vocational Colleges Based on artificial intelligence optimization network
		2:15 PM	2:30 PM	319952	Application of VR technology in practical courses of Preschool Education Specialty
		2:30 PM	2:45 PM	319951	Evaluation of business English practical teaching based on decision tree
		2:45 PM	3:00 PM	319950	Classification method of educational discourse power imbalance data set based on mixed big data analysis
		3:00 PM	3:15 PM	319948	Based on C4 Design and implementation of college health sports system based on 5 algorithm
		3:15 PM	3:30 PM	319947	Evaluation model of College English teaching effect based on big data platform
	Virtual Room 3 (Session 12)	3:45 PM	4:00 PM	319946	Communication path and influence analysis of drama, film and television performance of data technology
		4:00 PM	4:15 PM	319945	Evaluation method of English teaching quality based on SOFM neural network
		4:15 PM	4:30 PM	319944	Comparison between American restorative justice and Chinese people's mediation system in the era of big data intelligence
		4:30 PM	4:45 PM	319943	Computer ability education and training of tourism talents in the era of "Internet + tourism big data"
		4:45 PM	5:00 PM	319942	Construction and application of computer network experimental teaching platform based on big data

	Virtual Room 1 (Session 13)	8:00 AM	8:15 AM	319941	Construction and development of chemistry teaching platform in Higher Vocational Colleges under the background of artificial intelligence
		8:15 AM	8:30 AM	319940	Construction of a mathematical model based on the big data information platform
		8:30 AM	8:45 AM	319939	Research on the teaching application of the improved genetic algorithm in e-commerce
		8:45 AM	9:00 AM	319938	The cultivation path and construction exploration of college students' cultural confidence based on the information platform
		9:00 AM	9:15 AM	319937	Research on the system design of primary school science multimedia teaching
		9:15 AM	9:30 AM	319936	The application of hierarchical teaching mode based on hybrid criterion fuzzy algorithm in Higher Vocational English Education
		9:30 AM	9:45 AM	319935	Research on the quality evaluation of College Students' innovation and entrepreneurship education based on ant colony algorithm
		9:45 AM	10:00 AM	319934	The Application of Graphic Composition Design in Computer Vision Art Teaching
	Virtual Room 1 (Session 15)	10:15 AM	10:30 AM	319933	Construction of large-scale Chinese-English bilingual corpus and sentence alignment
		10:30 AM	10:45 AM	319932	Research on the "online and offline" operation education and teaching mode of cross-border e-commerce business based on the Internet
		10:45 AM	11:00 AM	319931	The application of documentary new media communication platform in education and teaching
		11:00 AM	11:15 AM	319930	Construction of maker education resource sharing platform based on Web Technology
		11:15 AM	11:30 AM	319929	Research on the management system of an internet big data analysis platform based on machine learning
		11:30 AM	11:45 AM	319928	The application design of modern educational information technology in kindergarten teaching
		11:45 AM	12:00 PM	319927	Construction of multidimensional and dynamic college students' innovation and entrepreneurship platform based on school enterprise cooperation
12:00 PM	12:15 PM	319926	Research on the integration design of algorithm teaching and mathematics curriculum under Information Technology		
12:15 PM	12:30 PM	319925	Construction of multidimensional and dynamic college students' innovation and entrepreneurship platform based on school-enterprise cooperation		
12:30 PM	12:45 PM	319923	Teaching practice and research of recognition system in art teaching based on visual communication		

July 30		12:45 PM	1:00 PM	319922	Research on the influencing factors of the endangered inheritance of folk intangible cultural heritage and the educational protection based on big data technology
	Virtual Room 1 (Session 17)	1:30 PM	1:45 PM	319921	Construction of quality evaluation system for innovative and entrepreneurial talent training under artificial intelligence system
		1:45 PM	2:00 PM	319920	Summary of research on learning analysis based on educational big data
		2:00 PM	2:15 PM	319919	Research on the evaluation of constructive English teaching model based on RBF algorithm
		2:15 PM	2:30 PM	319918	Study on the interactive education system of motion evaluation algorithm
		2:30 PM	2:45 PM	319917	Research on the evaluation of College English classroom teaching quality based on triangular fuzzy number
		2:45 PM	3:00 PM	319916	Study on corrosion wear and protection of coal preparation equipment based on PLC centralized control system
		3:00 PM	3:15 PM	319915	Research on the design of psychological quality education of Violin Course in Colleges and Universities under virtual technology
		3:15 PM	3:30 PM	319913	Research on the design of automatic accompaniment system of piano teaching audio database under the background of the Internet
	Virtual Room 1 (Session 19)	3:45 PM	4:00 PM	319911	Somatosensory dance interaction system based on AdaBoost algorithm
		4:00 PM	4:15 PM	319910	Research on educational informatization from the perspective of Pedagogy
		4:15 PM	4:30 PM	319909	Research on economic management experiment teaching management system based on computer
		4:30 PM	4:45 PM	319908	Research on Design of English teaching resource management system based on Collaborative Recommendation
		4:45 PM	5:00 PM	319907	Research on coordination between power information security system and environment based on fusion mechanism
	Virtual Room 2 (Session 14)	8:00 AM	8:15 AM	319906	Research on Computer Software Teaching Method of Digital Media Art Theory under the Background of Big Data
		8:15 AM	8:30 AM	319905	Research on computer network information security protection strategy and evaluation algorithm education
		8:30 AM	8:45 AM	319904	Research on computer aided English curriculum design in Higher Vocational Colleges
		8:45 AM	9:00 AM	319903	Research on College Students' English Online Autonomous Learning Based on ID3 algorithm

July 30 Virtual Room 2 (Session 16)	9:00 AM	9:15 AM	319901	Research on College Chinese online learning system based on content recommendation algorithm
	9:15 AM	9:30 AM	319900	Research on channel optimization strategy based on Data Mining Technology
	9:30 AM	9:45 AM	319899	Research on art design education based on genetic algorithm
	9:45 AM	10:00 AM	319898	Research Design of English Teaching Resource Management System Based on Collaborative Recommendation
	10:15 AM	10:30 AM	319897	Research and Design of Information Teaching Management System integrating association rule mining algorithm
	10:30 AM	10:45 AM	319896	Research and design of education management system based on cloud storage
	10:45 AM	11:00 AM	319895	Establishment and application of quality evaluation system of College Students' Psychological Education Based on genetic algorithm
	11:00 AM	11:15 AM	319894	Research and construction of university sports decision support system based on extraction algorithm and big data analysis technology
	11:15 AM	11:30 AM	319893	Research and application of software Testing Method Improvement based on Big data Information
	11:30 AM	11:45 AM	319892	Education targeted poverty alleviation system under cloud computing
	11:45 AM	12:00 PM	319890	Quality evaluation model of preschool art education based on deep learning theory
	12:00 PM	12:15 PM	319888	Discussion and practice of online and offline mixed teaching of track and field course based on OBE concept
	12:15 PM	12:30 PM	319887	Professional course system of film and television photography and production under data technology
	12:30 PM	12:45 PM	319886	Prediction of English major training model in Higher Vocational Education Based on fuzzy neural network algorithm
	12:45 PM	1:00 PM	319884	Practical Research on the Form of Art Undergraduate Education in Cultural and Creative Industry under the Background of Big Data

July 30	Virtual Room 2 (Session 18)	1:30 PM	1:45 PM	319883	Optimization models and educational teaching research in Agricultural Logistics System
		1:45 PM	2:00 PM	319882	Discourse analysis of Chinese culture translation based on crawler algorithm
		2:00 PM	2:15 PM	319881	On the influence of computer digital animation technology on film style
		2:15 PM	2:30 PM	319880	On the design of student employment module in higher education management system based on genetic algorithm
		2:30 PM	2:45 PM	319878	On the application and significance of simulation technology in film creation
		2:45 PM	3:00 PM	319877	Development of computer intelligent proofreading system from the perspective of medical English translation application
		3:00 PM	3:15 PM	319876	Multi-color garment cutting and decoupling optimization teaching method based on data mining algorithm
		3:15 PM	3:30 PM	319875	Investigation and Analysis on learning attitude of Public Pedagogy under the background of big data
	Virtual Room 2 (Session 20)	3:45 PM	4:00 PM	319873	Input and understanding of chemical symbols in multimedia education software
		4:00 PM	4:15 PM	319872	Design Teaching and Implementation of Data Mining algorithm in Business Management System
		4:15 PM	4:30 PM	319871	Innovative analysis of sports competition training integrating interactive digital media
		4:30 PM	4:45 PM	319870	Innovation of film and television screenwriter education in the era of mobile Internet
		4:45 PM	5:00 PM	319867	Design of Taijiquan multimedia distance teaching system based on ASP technology
	July 31	Virtual Room 1 (Session 21)	8:00 AM	8:15 AM	319866
8:15 AM			8:30 AM	319865	Design of information teaching management system integrating Association Rule Mining Algorithm
8:30 AM			8:45 AM	319864	Design of Education Management System Based on Cloud Storage
8:45 AM			9:00 AM	319862	Design of business administration professional shared whiteboard teaching system based on BS data mining architecture
9:00 AM			9:15 AM	319860	Design and research of College Students' comprehensive quality evaluation system based on evolutionary algorithm
9:15 AM			9:30 AM	319856	Course recommendation method and system of education platform based on deep learning
9:30 AM			9:45 AM	319854	Application of stochastic simulation algorithm in evaluation of PE training
9:45 AM			10:00 AM	319850	Data mining analysis based on business administration data

July 31	Virtual Room 1 (Session 23)	10:15 AM	10:30 AM	319843	Decision support system model of education management based on cloud storage technology
		10:30 AM	10:45 AM	319840	Deep Learning in the Context of Big Data: The Theoretical Basis of Undergraduate Education Reform
		10:45 AM	11:00 AM	319839	Design and development of CAI Courseware for basketball teaching of Physical Education Specialty
		11:00 AM	11:15 AM	319838	Application of network course platform based on cloud computing in Physical Education
		11:15 AM	11:30 AM	319837	Application of montage thinking in computer sketch painting
		11:30 AM	11:45 AM	319835	Design and implementation of dynamic grouping algorithm based on sports track
		11:45 AM	12:00 PM	319834	Application of Machine Learning algorithm in Marketing Education
		12:00 PM	12:15 PM	319833	Application of intelligent water conservancy information system in agricultural water-saving irrigation
		12:15 PM	12:30 PM	319832	Application of Risk Assessment Model of Accounting Resource Sharing Management in Education and Teaching
		12:30 PM	12:45 PM	319831	Application of Intelligent Fuzzy Decision Tree algorithm in English Translation Education
	12:45 PM	1:00 PM	319829	Application of improved association rule algorithm in Ecommerce English	
	Virtual Room 1 (Session 25)	1:30 PM	1:45 PM	319828	Application of random simulation algorithm in practical teaching of Public Physical Education in Colleges and Universities
		1:45 PM	2:00 PM	319826	Application of ID3 algorithm in college students' mental health education
		2:00 PM	2:15 PM	319825	Application of game equilibrium theory and algorithm in modern talent training model
		2:15 PM	2:30 PM	319824	Application of fuzzy c-means clustering algorithm in consumer psychology
		2:30 PM	2:45 PM	319823	Application of random simulation algorithm in physical education teaching evaluation
		2:45 PM	3:00 PM	319822	Application of flipped classroom teaching mode based on Ant Colony Algorithm in Higher Vocational java course
	Virtual Room 2 (Session 22)	8:00 AM	8:15 AM	319820	Application of environmental isotopes to study the origin and recharge mechanism of geothermal water
		8:15 AM	8:30 AM	319818	Application of decision tree algorithm in teaching quality analysis of Physical Education
		8:30 AM	8:45 AM	319816	Application of quaternion instructional design mode in higher education based on personalized algorithm
		8:45 AM	9:00 AM	319813	Application of Network Curriculum Platform based on Cloud Computing in Physical Education Teaching

July 31		9:00 AM	9:15 AM	319812	Design and realization of the innovation and entrepreneurship experience system of data dynamic innovation model
		9:15 AM	9:30 AM	319807	Application of data analysis technology in Physical Education Teaching
		9:30 AM	9:45 AM	319805	Application of classification mining technology based on decision tree in Student Resource Management
		9:45 AM	10:00 AM	319803	Application of big data in comprehensive management and service of sports training system under the background of informatization
	Virtual Room 2 (Session 24)	10:15 AM	10:30 AM	319802	Application and Implementation of Education Management System Based on Cloud Storage
		10:30 AM	10:45 AM	319801	Analysis of the rational use of context construction in College English teaching based on Association Rules Mining Algorithm
		10:45 AM	11:00 AM	319794	Analysis of College English Teaching under the network teaching platform
		11:00 AM	11:15 AM	319793	Analysis and prediction of CET4 based on Data Mining
		11:15 AM	11:30 AM	319789	An intelligent piano teaching system and method based on a cloud platform
		11:30 AM	11:45 AM	319779	Design and implementation of student physical fitness analysis system based on Data Mining Technology
		11:45 AM	12:00 PM	319778	Design and implementation of oral training system based on automatic speech evaluation
		12:00 PM	12:15 PM	319777	Design and implementation of learning management system based on user behavior dynamic recommendation algorithm
		12:15 PM	12:30 PM	319776	An Industrial Software Model Checking Method Based on Machine Learning and Its Application in Education
		12:30 PM	12:45 PM	319775	An analysis of hotel management business strategy research under the background of tourism boom under the correlation algorithm
	12:45 PM	1:00 PM	319774	Design of English teaching resource management system based on Collaborative Recommendation	
	Virtual Room 2 (Session 26)	1:30 PM	1:45 PM	319773	Algorithm and implementation of College English teaching comprehensive ability evaluation system
		1:45 PM	2:00 PM	319772	Design and implementation of key modules of English teaching system based on J2EE
		2:00 PM	2:15 PM	319771	A study on the scoring method of oral English test in College English online computer test

July 31	2:15 PM	2:30 PM	319770	Research on the Design of Modern Music Creation System under Data Technology
	2:30 PM	2:45 PM	319769	Design and implementation of English teaching analysis system based on Data Mining
	2:45 PM	3:00 PM	319767	A study of College English writing from the perspective of deep learning
	3:15 PM	3:30 PM	318500	A Survey of Trendy Financial Sector Applications of Machine and Deep Learning

July 29 

July 30 

July 31
